

Do you have, or know, a child or student in middle school who loves mathematics? The Math Circle at FAU may be just the place for him or her. This circle is for all middle school students who enjoy mathematics and who wish to increase their mathematical knowledge and skills. We meet every other Saturday to solve problems, play mathematical games, have friendly mathematical competitions. Above all we have fun while learning mathematics. Parents and teachers are not only welcome; they are encouraged to come.

Dates for the sessions beginning in September 2022 are:

9/24, 10/8, 10/22, 11/5, 11/19, 12/3, and 12/17.

All sessions are on the Boca campus of FAU, 2:30 to 4 p.m., in PS 109
