

REU in patterns, growth, and dynamics at Boston University

Information about the REU

This eight week REU will run tentatively from June 2nd - July 28th and, if possible, take place on the main campus at Boston University. If this is not possible due to travel restrictions or university rules addressing the pandemic, the REU will run virtually.

Eligibility: An applicant must be a US citizens or permanent resident and must not have finished their undergraduate degree by summer 2021.

Support: Participants will receive a stipend of \$4800 and support for housing on the BU campus (if done in person). Domestic travel funding may also be available.

Students from historically underrepresented groups in mathematics are particularly encouraged to apply.

Deadline: Applications received by March 1 will be given full consideration.
