The department currently (2022-2023) has the following awards. Application procedures are announced in the Spring.

**GRADUATE SCHOLARSHIPS**

**Arthur Cayley Graduate Scholarship**

- Criteria: Graduate students with a 3.8 GPA in Mathematical Sciences working towards a degree in Algebra, Cryptology, or Combinatorics who have demonstrated excellence in Ph.D. research.

**Isaac Shur Graduate Scholarship**

- Criteria: Graduate students with a 3.7 GPA in Mathematical Sciences who have successfully completed the qualifying examinations and are working in Algebra, Cryptology, or Combinatorics.

**Leanne and Spyros Magliveras Graduate Award**

- Criteria: Graduate students with a 3.7 GPA in Mathematical Sciences with excellent performance in math courses, research and teaching.

**James Brewer Scholarship**

- Criteria: Graduate students with a 3.0 GPA in Mathematical Sciences who have successfully completed the qualifying examinations with a high passing score in Abstract Algebra.

**Gus and Sharon Pearthree Math Graduate Scholars Award**

- To be eligible for this scholarship, students must major in Math. Priority shall be given to students enrolled as Ph.D./doctoral candidates. Qualified recipients must be considered excellent students, researchers and/or instructors and among the best of the post-graduate math degree candidates. Preference will be given to United States citizens or Green Card holders.
