

The FAU AMS, AWM and SIAM student chapters invite you
to a Q&A with

David Hartmann

CEO and founder The Silver Logic

Friday October 23, 2020
4:00pm EST

Open to all and live on [Zoom](#) with the passcode: .gEgi4

About the speaker

David graduated from FAU with a Master in Computer Science in 2016. He is an experienced Chief Executive Officer with a demonstrated history of working in the computer software industry. He is also skilled in iOS and web development, overall application architecture and infrastructure design. He is a strong entrepreneurship professional and this experience lead him to create The Silver Logic, an application and software development business based in Boca Raton.

About The Silver Logic

The SilverLogic transforms clients' ideas and the vision of their ideal business into reality by enhancing client experience or reducing operating costs, aiming for a result in their investment paying for itself. Whether it's customizing out-of-the-box software, supporting start-ups, or developing custom solutions, we work collaboratively with clients from start to finish so users, staff, and/or customers get the experience they need to deliver the results your business deserves.

About our student chapters

The department of Mathematical sciences at Florida Atlantic University is proud to be the home of local student chapters for; the American Mathematical Society, the Association for Women in Mathematics, and the Society for Industrial and Applied Mathematics. It is free to become a member of any chapter and it provides many benefits. For more information, please contact our officers our visite our webpages!
